

Assange, imperialism and rape: What do socialists say?

SWSS
MEETING
All Welcome

Assange and his organisation Wikileaks have repeatedly pulled the US tiger by the tail. From the Afghanistan “Collateral Murder” video to the war logs and the cables, they have angered the imperial superpower.

But Assange and some of his supporters have refused to take the rape allegations he faces seriously. His own lawyers have endorsed conspiracy theories calling the women a “honeytrap”. Ecuadorian foreign minister Ricardo Patino even disgustingly called the accusations “hilarious”.

We stands against the imperialist revenge on Wikileaks. But we believe rape accusations should never be trivialised or brushed aside. Come and join the discussion.
