

SWSS  
MEETING  
All Welcome

Hosted by the Socialist Worker Student Society ● [www.swssnet.org](http://www.swssnet.org)

**A**s we enter the new term, capitalism's crisis in engulfing the Eurozone. In Spain and Greece youth unemployment has hit 50 per cent while the banks are being rescued time again.

Resistance is growing. Millions across the world have joined in mass revolts and general strikes. We need an alternative to cuts and austerity but what is it?

If Labour came into power at the next general election the picture would be more of the same. The revolutions in Egypt and the Arab world have shown a different path to change and have been a testament to our collective strength.

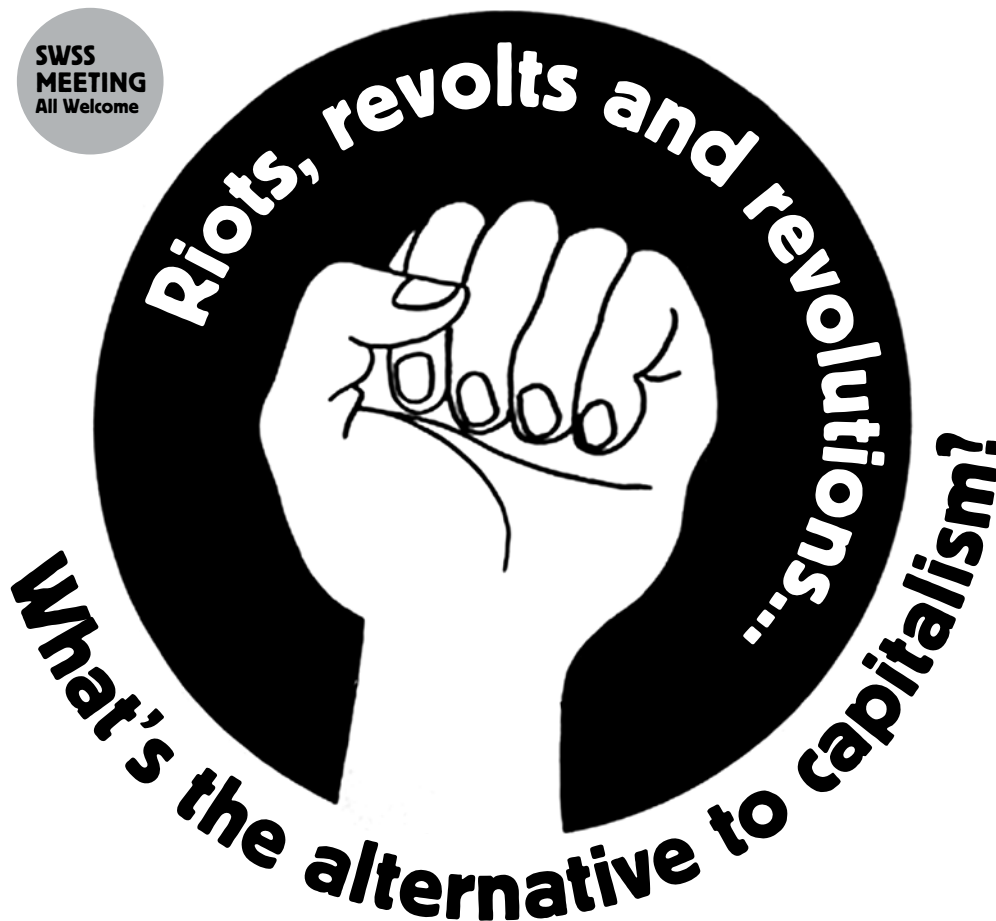

Come to our meeting and discuss the alternative to capitalism
